THIS IS UNEVALUATED INFORMATION

25X1 1. [redacted] a photograph was taken of a radio installation with
 25X1 one mast, from a clearing northwest of Spechthausen (N 53/V OS). * Two soldiers
 25X1 wearing white-bordered black epauletts were working on two temporary buildings
 which were apparently newly erected. Many boards were scattered between the
 two buildings. The noise of a generator was heard from the installation. A four-
 wire line, supported by wooden masts 3.5 meters high and fitted with insulators,
 led from the dismantled railroad line to the installation.

2. Another photograph was taken of a metal plate 1.5 x 3.5 meters which was on the
 ground in a wooded area north of the radio installation. The metal plate had
 two rods about 3 meters long on top of which a horizontal dipole about 3 meters
 long was mounted. **

Comment. For location of radio installation, see Annex 1. [redacted]

25X1

The radio installation is the outer landing beacon of
 Finow airfield. The installation was moved about 300 meters farther to the south-
 west. Its location was previously reported. [redacted]
